

DIRECT DC

Under Cabinet Light

COMMERCIAL APPLICATION

Maximum brightness, unrivaled efficiency.

This Under Cabinet Light provides powerful illumination in a slim package.

You won't know it's there until you turn it on and see the light, without shadowing - perfect for those hard to light areas.

Strips in this fixture - The ION Light engine offers illumination performance unavailable from other manufacturers: **150 Lumens per watt, CRI 97, 100,000 hour life.**

ETL Listed. RoHS compliant. Mercury free, no IR or UV radiation. EM/RF interference free.

Available in:

- 3,500K
- 4,200K
- 5,000K

Available in 1', 2', 4' lengths.

Connects to the **Lumicat Digital Light Module** using Cat-5 cable or hard wire, providing the simplest, most cost-effective installation available.

- Thin profile - less than 1" depth, 3" width.
- High Lumen Direct LED Array
- 48VDC - free from electrocution and fire hazards.
- Class 2 Power, no conduit needed.
- Optional On/Off switch available.

SPECIFICATIONS	
LED Driver Input Voltage	48VDC
Dimming	0 - 100%
Beam Angle	120 Degrees
Housing Color	White Powder Coat
Fixture Material	Aluminum Housing
Expected Lifespan	100,000 hours (L70)
Warranty	5 years
Standards/Certifications	Made in USA, ETL Listed, RoHS, CE

LED LIGHT COLOR:

Warm White

Neutral White

Cool White

FEATURES:

- No UV or IR radiation
- Easy to install and mount, featuring integral spring fixture retention clamps
- Maintenance free
- Suitable for temperatures from -4 to +122 degrees F (-20 to +50 C)
- Solid-state construction shock and vibration resistant
- LEDs are super bright, high intensity and low power consumption
- Extremely long life: up to 100,000 hours (L70)
- No RF or EM interference
